

MOTHERS DAY CRAFT FOR PRE-SCHOOLERS

REQUIRED: Template printed on white or coloured A4 card
Scissors
Clear seal or cello tape (or laminator)
Craft knife
Short piece dowel (preferably slightly sharpened at one end)

This activity can be made as easy or difficult as required to suit child's age.

- Print the following pages onto white or coloured A4 card, in black and white or colour as you wish (older children would enjoy colouring and decorating the black & white version)
- Have the children cut around the circle (if they are able)
- Reinforce centre back with clear seal or tape (or laminate whole circle after it has been decorated)
- Have an adult cut small lines in the middle circle with a craft knife. Help the children to push a short piece of dowel through the centre from front to back
- Cellotape the back edges around the dowel to hold it secure

Enjoy playing with the spinner with Mum, taking turns to spin and do the action that the spinner rests on.
